

Euna Kim

Full-Stack Developer

Accomplished and self-initiative full-stack developer with extensive background in Software Engineering and Web Application Development. I began my journey as a young and enthusiastic HTML community leader with 10,000 members, and since then I have honed my skills and become a professional developer. I pride myself on being self-motivated and proactive, and I believe in the value of teamwork and collaboration. I am also passionate about staying up-to-date with the latest technologies and continuously improving skills to meet evolving industry demands.
